

Policy Notice & FAQs

Vehicles

Kirwin Ghost Town Adventures provides a Vehicle (SxS/SUV/Jeep * as described Pg 1 of Rental Agreement) in which you can safely EXPLORE our Shoshone National Forest Service Roads.

We maintain & OUTFIT each Vehicle to our high standards and promise that they will get you into and out of the Forest, unless Emergency Services are required. ***In the case of any mechanical failure WE will come and get you out of the Forest and back to Meeteetse, again, unless Emergency Services are required.***

Conditions

People constantly ask about Road or River Conditions.

We cannot know the ever changing conditions of such areas of the National Forest, nor do we pretend to. The weather at Elevation and it's affect on any part the Forest can change rapidly and without warning. Our local Forest Ranger does not and cannot know the constantly changing conditions, and says so. Often.

We will gladly share our most recent experiences in the areas of the Forest we frequent.

We offer no guarantee, *beyond our equipment*, as incentive to get your business. We have NO CONTROL over particular conditions anywhere in the National Forest, nor the potential of Wildlife sightings, or not.

We do not cancel and/or refund Bookings unless WE determine conditions to be dangerous.

It is up to **YOU** to be safe and make smart decisions.

This is public land.

All Americans own our National Forests.

They are, by nature, wild places.

We're pretty sure you WILL have a Memorable Adventure.

* But, it's YOUR Adventure.

* Make it a Safe One!
